EXPERT LECTURE

&

**ONE WEEK ONLINE STUDENT
DEVELOPMENT PROGRAM (SDP)**

ON THE OCCASION OF

CONVOCATION WEEK CELEBRATION

FROM

29 AUGUST- 6 SEPTEMBER,

2024

EVENT DETAILS

The Department of Computer Science and Application at Atal Bihari Vajpayee Vishwavidyalaya, Bilaspur, proudly participated in the university's 5th Convocation Week, which was observed from August 29 to September 6, 2024. This week-long celebration was held in honor of the university's convocation day on August 31, 2024. Following the directive of the Hon'ble Vice Chancellor, Prof. A.D.N. Bajpai, all departments were encouraged to extend the celebrations beyond the convocation day, leading to a series of engaging activities organized by the Department of Computer Science.

The Convocation Week activities commenced with a formal inauguration led by the Hon'ble Vice Chancellor, Prof. A.D.N. Bajpai. Dr. H.S. Hota, the Head of the Department of Computer Science and Application, welcomed Prof. Bajpai and introduced the week's schedule of events. Dr. Hota provided an overview of the department's planned activities, setting a positive tone for the week's proceedings.

The first major event took place on August 29, 2024, starting at 12:00 PM. Prof. Srinivasa K.G., Professor, Dean (Academics), and Head of the Department of Data Science and Artificial Intelligence (DSAI) at IIIT Raipur, delivered an expert lecture. His talk covered recent advancements and future directions in Data Science and Artificial Intelligence, offering valuable insights into these rapidly evolving fields.

The second activity, also on August 29, 2024, was an expert lecture by Prof. Bhuban Chandra Mahapatra, which began at 2:00 PM. Prof. Mahapatra addressed the topic "Implementation of NEP-2020 in Higher Education Institutions: Opportunities and Challenges." His lecture provided an in-depth examination of the National Education Policy 2020, discussing its potential impacts on higher education and the challenges that institutions may face in its implementation.

EVENT DETAILS

The third activity was a one-week online student development programme, conducted from September 2 to 6, 2024. This programme focused on Advanced Excel with Data Visualization, designed to enhance students' skills in data analysis and visualization. The online format facilitated broad participation, allowing students to gain hands-on experience with advanced Excel techniques and data visualization tools.

Throughout the week, Hon'ble Vice Chancellor Prof. A.D.N. Bajpai actively engaged with students and faculty, offering congratulations for the successful organization of Convocation Week activities. He emphasized the critical role these programs play in fostering academic and professional growth. During his interactions, Prof. Bajpai highlighted the importance of expanding linguistic and research efforts, specifically encouraging the study and preservation of native languages, such as Chhattisgarhi. He urged students and faculty to contribute to the advancement of these languages through research and engagement. Prof. Bajpai's focus on language development reflects a commitment to enhancing cultural and academic diversity, ensuring that native languages are preserved and promoted alongside academic progress. His support for these initiatives underscores the university's dedication to both scholarly excellence and cultural enrichment.

The inaugural session was also attended by Mr. Jeetendra Kumar, Dr. Rashmi Gupta, Dr. Shriya Sahu, and other esteemed guest faculty members, alongside the students of the department.

In summary, the Convocation Week organized by the Department of Computer Science and Application was a significant success, marked by a series of educational and professional development activities. The week not only celebrated the university's milestone but also highlighted the department's commitment to enhancing academic and practical knowledge among students.

ACTIVITY DETAILS

As the inaugural event of Convocation Week, the Department organized an expert lecture on August 29, 2024, commencing at 12:00 PM. This engaging session featured Prof. Srinivasa K.G., who holds the positions of Professor, Dean (Academics), and Head of the DSAI Department at IIIT Raipur.

The event was officially opened with a warm welcome from Dr. H.S. Hota, Head of the Department of Computer Science and Application. Dr. Hota expressed his gratitude for Prof. Srinivasa's participation and highlighted the significance of his visit. Following this, Dr. Rashmi Gupta, the coordinator of the event, provided an introduction to Prof. Srinivasa, outlining his notable achievements and contributions to the fields of Data Science and Artificial Intelligence.

Prof. Srinivasa's lecture provided a comprehensive overview of recent advancements and future directions in Data Science and Artificial Intelligence. His presentation covered a wide array of topics, including colony optimization, which addresses complex optimization problems by mimicking biological processes. He also discussed the relevance of competitive programming and hacker ranks, emphasizing how these platforms foster problem-solving skills and prepare individuals for the tech industry.

In addition, Prof. Srinivasa highlighted the importance of skill development, focusing on the processes of upskilling and reskilling to adapt to the fast-evolving technological landscape. His discussion also touched upon innovative applications such as robocar, illustrating the practical uses of AI in autonomous vehicles.

The session was attended by all students of the department, who were actively engaged and benefited greatly from Prof. Srinivasa's insights. The expert lecture not only enriched their understanding of current and emerging trends in Data Science and Artificial Intelligence but also inspired them to pursue further exploration and research in these dynamic fields.

Dr. Shriya Sahu

ACTIVITY DETAILS

On August 29, 2024, as the inaugural activity of the Convocation Week Celebration, the Department organized a highly informative expert lecture scheduled to start at 02:00 PM. This event featured Prof. Bhuban Chandra Mahapatra, an esteemed Adjunct Professor and Research Director from the Department of Research. Prof. Mahapatra delivered a compelling lecture titled "Implementation of NEP-2020 in Higher Education Institutions: Opportunities and Challenges," addressing the transformative National Education Policy (NEP) 2020 and its implications for higher education.

The session began with a warm welcome from Dr. H.S. Hota, the Head of the Department of Computer Science and Application. Dr. Hota expressed his gratitude to Prof. Mahapatra for his participation and emphasized the significance of the lecture in the context of the ongoing educational reforms introduced by NEP-2020. This introduction set a positive tone for the event, highlighting the importance of the discussion in shaping the future of academic practices.

Following the welcome address, Dr. Shriya Sahu, the coordinator of the event, provided a detailed introduction to Prof. Mahapatra. She outlined his extensive background and expertise in education research, which added credibility and depth to the session. Dr. Sahu's introduction not only showcased Prof. Mahapatra's qualifications but also prepared the audience for the rich content of the lecture.

Prof. Mahapatra's lecture was meticulously structured to cover several crucial aspects of NEP-2020. He began with an examination of how the policy proposes to revise and enhance current syllabi and curricula, aiming to make them more relevant and robust. He then introduced the NEP-2020, providing a detailed overview of its key components and objectives. The structure of the policy was explored, including the strategic changes it proposes for higher education institutions.

ACTIVITY DETAILS

One of the focal points of the lecture was the potential impact of NEP-2020 on the academic landscape. Prof. Mahapatra discussed how the policy could affect institutional practices, educational standards, and student outcomes. He emphasized the opportunities that NEP-2020 presents for improving educational quality and accessibility. At the same time, he addressed the challenges that institutions may face in implementing the policy effectively, providing a balanced view of both its promises and potential hurdles.

At the end of the session, a questionnaire was administered via Google Forms to assess the students' understanding of NEP-2020. This digital format was chosen for its convenience and ease of analysis. The questionnaire aimed to evaluate the extent of knowledge the students had gained from Prof. Mahapatra's lecture on NEP-2020.

Students responded to the questionnaire with notable enthusiasm, reflecting their active engagement with the topic. The questions covered various aspects of the National Education Policy, including its key components, structural changes, potential impacts, and the opportunities and challenges it presents. The use of Google Forms allowed for a seamless collection of responses, providing an efficient means to gauge students' comprehension and feedback.

The interactive nature of the questionnaire not only reinforced the information presented during the lecture but also offered valuable insights into students' perceptions and understanding of NEP-2020. This exercise provided an opportunity for students to reflect on and apply the knowledge they had acquired, while also enabling the organizers to assess the effectiveness of the session and identify areas for future improvement.

Overall, the expert lecture was a significant contribution to the Convocation Week Celebration. It provided a thorough understanding of NEP-2020 and fostered a deeper awareness among the academic community about the ongoing educational reforms. The event was well-received and highlighted the Department's commitment to staying at the forefront of educational advancements.

ACTIVITY DETAILS

As part of the Convocation Week Celebration, the Department of [Department Name] organized a one-week online Student Development Programme (SDP) on "Advanced Excel with Data Visualization" from September 2 to 6, 2024. This initiative was conducted in association with the E & ICT Academy, IIT Kanpur, and supported by the IEEE Chapter of the Department. The programme was organized under the Memorandum of Understanding (MoU) between the Department and IIT Kanpur, with Dr. H.S. Hota, the Head of the Department, serving as the Convenor and Dr. Shriya Sahu as the Coordinator.

The SDP aimed to advance students' skills in Microsoft Excel, focusing on both foundational and advanced features essential for data analysis and visualization. The programme covered a broad range of topics starting from the basics of Excel to more complex functions. Participants gained practical experience with various Excel functions, including SUM, AVERAGE, COUNT, MAX, MIN, financial, logical, date & time functions, and conditional statements. Additionally, the sessions delved into data sorting, auto filter, custom filter, advanced filter, and statistical functions.

The online format of the programme included interactive sessions that combined theoretical instruction with hands-on practice. Students engaged in real-time exercises, applying Excel functions to actual data sets, which helped them understand and utilize these tools effectively. The curriculum was designed to equip students with skills that are highly valuable for academic and professional contexts.

At the conclusion of the SDP, certificates were awarded to all participants, recognizing their successful completion of the programme. Feedback from attendees was positive, highlighting the practical value of the training and the effectiveness of the hands-on approach. Overall, the SDP was successful in achieving its objectives, providing students with valuable skills that will benefit their academic and professional endeavors.

The programme significantly contributed to the students' development and was a valuable addition to the Convocation Week Celebration activities.

11. Weekday
 =WEEKDAY(serial_number, [return_type])
 Returns the day of the week corresponding to a date.

12. Weeknum
 =WEEKNUM(serial_number, [return_type])
 Returns the week number of a date.

13. Workdays
 =WORKDAY(start_date, days, [holidays])
 Returns a date that is the specified number of workdays before or after the start date.

14. Workday.intl
 =WORKDAY.INTL(start_date, days, [weekend], [holidays])
 Returns a date that is the specified number of workdays before or after the start date with a custom weekend definition.

The screenshot shows the same Zoom meeting interface. The Excel spreadsheet is visible, and a context menu is open over the 'Salary' column. The menu options include: Cut, Copy, Paste Options, Paste Special..., Smart Lookup, Insert..., Delete..., Clear Contents, Quick Analysis, Filter, Sort (with sub-options: Sort Smallest to Largest, Sort Largest to Smallest), Insert Comment, Format Cells..., Pick From Drop-down List..., Define Name..., and Link. The spreadsheet data is partially visible in the background.

7. IFS Function
=IFS(logical_test1, value_if_true1, [logical_test2, value_if_true2], ...)
Checks multiple conditions and returns a value corresponding to the first TRUE condition.

8. XOR Function
=XOR(logical1, [logical2], ...)
Returns TRUE if an odd number of arguments are TRUE; otherwise, it returns FALSE.

9. TRUE Function
=TRUE()
Returns the logical value TRUE.

10. FALSE Function
=FALSE()
Returns the logical value FALSE.

Logical Functions

1. IF Function
 =IF(logical_test, value_if_true, value_if_false)
 Returns one value if a condition is true and another value if it's false.
2. AND Function
 =AND(logical1, [logical2], ...)
 Returns TRUE if all arguments are true; otherwise, returns FALSE.
3. OR Function
 =OR(logical1, [logical2], ...)
 Returns TRUE if any argument is true; otherwise, returns FALSE.
4. NOT Function
 =NOT(logical)
 Reverses the value of its argument. If the argument is TRUE, NOT returns FALSE, and vice versa.

`=TRUE()`
Returns the logical value TRUE.

10. FALSE Function
`=FALSE()`
Returns the logical value FALSE.

DATE & Time Functions

1. Date
`=DATE(year, month, day)`
Creates a date from the specified year, month, and day.

2. Datedif
`=DATEDIF(start_date, end_date, unit)`
Calculates the difference between two dates in various units (like days, months, or years).
Note: This function is provided for compatibility with Lotus 1-2-3 and may not be listed in Excel's Function Wizard.
