EVENT DETAILS

On 2nd December 2024, the Department of Computer Science and Application at Atal Bihari Vajpayee Vishwavidyalaya, Bilaspur (C.G.) organized a Speech Competition to celebrate Computer Literacy Day. The event was held at the Center of Excellence Lab (CoE), with Dr. Shriya Sahu, Assistant Professor, serving as the coordinator. The program began with a brief introduction by Dr. Sahu, who highlighted the significance of Computer Literacy Day and the theme of the competition, "Impact of Technology." She explained how technology has fundamentally transformed modern lifestyles, urging participants to reflect on the ways it has impacted their personal lives and society as a whole.

A total of 22 participants from various semesters of the B.Sc. (Hons) Computer Science, MCA, and M.Sc. Computer Science programs took part in the competition. The students shared their thoughts on how technology has influenced daily life, comparing traditional methods with modern, technology-driven lifestyles. They also discussed personal experiences of how technological advancements, particularly Artificial Intelligence (AI), have changed the way they approach learning, communication, and work. Some students highlighted the transformative role of AI in sectors such as healthcare, education, and business, while others reflected on how digital tools have made their lives more efficient and connected.

The speeches were insightful and diverse, with several participants sharing compelling personal stories. Prajjwal Matoliya (B.Sc. (Hons) Computer Science, III Semester) earned the first prize for his engaging speech on how digital learning platforms helped him during the pandemic. Khushboo (MCA, I Semester) was awarded the second prize for her detailed analysis of AI and its potential to revolutionize industries. The third prize went to Ramchand (B.Sc. (Hons) Computer Science, V Semester), who shared his experiences of staying connected with family members through digital platforms during the lockdown. Additionally, three students—Himanshu Sao (M.Sc. Computer Science, I Semester), Ankit Barai (MCA, III Semester), and Jitendra Dewangan (MCA, I Semester)—received consolation prizes for their valuable contributions.

The competition was judged by Ms. Purna Verma, Ms. Ankita Jaiswal, and Mr. Deepesh Kumar Dwivedi, guest faculties of the department. The judges provided constructive feedback and appreciated the participants for their creativity and thoughtful reflections on the impact of technology. The event concluded with a formal vote of thanks from Dr. Sahu, who expressed her gratitude to all the participants, judges, and attendees. She also congratulated the winners and encouraged students to continue exploring innovative uses of technology to address global challenges. The program ended with a group photograph, capturing the momentous occasion.

Overall, the speech competition was a successful platform for students to express their views on how technology is shaping the modern world. It emphasized the importance of computer literacy and provided an opportunity for participants to reflect critically on the role of technology in their lives. The event not only celebrated Computer Literacy Day but also inspired students to engage with the evolving digital landscape and contribute to the technological advancements of the future.
